SUBMISSION REVIEW FORM

TITLE OF THE MANUSCRIPT:

PEER REVIEWER'S PERSONAL DATA

Name:

Latest Degree:

Position(s):

E-mail:

Date of submission receipt:

Date of reviewed submission and review form return:

1. Would you recommend publishing this submission?

- a. Yes, as is:
- b. Yes, with minor revisions:
- c. Yes, subject to major revision:
- d. No:

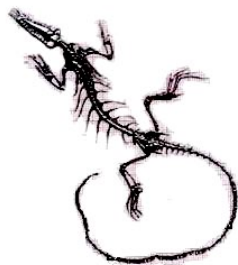

2. How do you rate this submission in the following items?

	Lacking interest	Flawed	Room for improve ment	Good	Outstanding
General and theoretical contribution					
Quality of the analysis					
Factual content					
Method and planning					
Presentation and style

ISSN: 1794-2489 E-ISSN: 2011-2742

3. Do the headline and abstract provide an accurate view of the manuscript's content?
4. Do you agree to follow up on a revised version of this manuscript?
5. Please explain your recommendation in a few lines and suggest any necessary revisions.
6. In which of the following categories does this manuscript fit?
 - a.- A scientific and technological research article:¹
 - b.- A reflection article:²
 - c.- A literature review:³
 - d.- Another:
7. If your recommendation is to decline this submission, please detail the reasons to do so.

¹ A document presenting a detailed report of the results from an original research project. It usually presents four major sections: introduction, method, results and discussion, and conclusions.

² A document presenting research results from the author's analytical, interpretative or critical view on a given topic, drawing on primary sources.

³ A document stemming from research work, with published or unpublished research results on a given field of science or technology being systematically and integrally analyzed, with the aim of accounting for advances and development trends. It is expected to present a thorough bibliographic review with at least 50 titles referenced.
